## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 249-251, 261, 274-276 and 286 are allowed.
2. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of claims 249-251 and 274-276 is the inclusion of limitations for replenishing the replenishable supply in real-time concurrently with sample-processing, as discussed in applicant's remarks, filed 13 March 2007 on pages 16 and 17. It is this limitation found in claims 249-251 and 274-276 that makes the claims allowable over the prior art of record.

The primary reason for the allowance of claims 261 and 286 is the inclusion of limitations for storing individual robotic movement data, storing subject sample data and storing type of protocol data, as shown in claims 261 and 286. It is these limitations found in claims 261 and 286 but not found in the prior art of record that makes these claims allowable over the prior art..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
